GOING Green

At Gables Woodley Park, we are mindful of our impact on the environment and have launched a host of corporate “green initiatives” to help do our part. Our green construction and building practices are advocated by the Environmental Protection Agency, US Green Building Council and local sustainable building organizations. Energy efficiency and water conservation, indoor air quality, recycling and green transportation methods are our focus as we work towards sustainability at Woodley Park. Our environmentally-conscious efforts include:

- Energy conserving business practices by management staff
- Energy efficient building lighting
- Low VOC paint used in apartment homes
- Fresh air circulation system
- Use of eco-friendly cleaning products by management staff
- Centralized recycling program
- Recyclable carpet installed in apartment homes
- Encouraging our residents to visit attractions such as the Washington Monument and Woodley Park Zoo by using green transportation methods

We hope that our many “green initiatives” will encourage you to join an environmentally supportive community like Gables Woodley Park.
